Stranger
Why do you look so familiar?
Savior
Was I supposed to save you?

Did you try?
Am I still in your mind?
Don't know if you're alright
Don't know if you're alive

Cause I don't know you now
Did you finally make it out?
You left me in this town
You're a stranger to me now

Stranger
Were all of your promises empty?
Did you forget me?
Or did you find a way to resent me?

Stranger
Do you hear my voice in the lightning?
Do you see my face in the shadows the light brings?
Guilt finds a way of reminding

Did you try?
Am I still in your mind?
Don't know if you're alright
Don't know if you're alive

Cause I don't know you now
Did you finally make it out?
You left me in this town
You're a stranger to me now
