

## God's a Girl?

Ab-Soul

I ain't gon' lie, you got me cryin' with a hard dick (amen)  
How I love you so much that I hate this shit?  
I get it get it, I (don't stop)  
You ain't doin' your job if you don't say (oh, my god)  
Come have sex with Jesus  
Come have sex with Jesus (Soulo)  
Come have sex with Jesus  
You ain't doin' your job if you don't say (oh, my god)

Every single time, yeah  
And all I got is goddesses, I'm a heroine addict  
That's it, that's it  
Yeah cause I I really wanted to talk about like  
You know, it's crazy how  
How Jesus is in the bible and he don't get no p\*ssy at all  
A 33 year old virgin  
Yeah it's crazy  
Like all the drugs are girls  
Mary, Molly  
Yeah for real, they're all named after girls  
And they're really like female plants and shit

Yes Lord (Black Lip Pastor)  
We in Frankies castle with the pack though  
Motherf\*cking pack  
Top want me to go to rehab  
Told him I would go too  
Probably just relapse  
Cause that's what ill niggas do  
Won't even pop a bottle without poppin a pill  
Can't have a meal without picking up the bill  
Should be more concerned with my health  
But I'm gonna die trying to get this wealth  
Pay attention nigga  
I've been going platinum, they just trying to take it  
f\*ck boys acting up, like an adult film audition  
I'm just eating these rappers up  
Sending artists to the mortician  
I'm just with my niggas hanging, case of champagne  
Need some water but I'd rather me a martyr for the cause  
Nigga y'all niggas still don't get it  
Juvenile never went to juvenile hall  
It was 400 degrees on terminals  
The homies playing with the strap off safety  
And my lady at the time she stayed on gun lock  
The irony in that alone is crazy  
I come up with shit like that that's why they say I'm crazy  
Maybe  
I'm with the shits, I'm off the shits  
(YMF)  
Rockstar lifestyle might not make it  
But I guarantee she make it to the penthouse naked  
You niggas been outdated  
Like the bitches I dated way way way way back when  
Now I'm getting brain in the tenant's Maybach Benz  
It's rented but I'm in it nigga  
I didn't pay back

More insufficient funds in the last 5 months than you gonna make in this whole year  
On the mountain top about to cry cause it gets so lonely up here  
Is anybody out there?  
Can anybody hear me?  
In this jaded generation of complacency siri don't even take us seriously  
But that's some other shit just being honest with you  
Right hand on the bible with you  
My ancestors came on the mothership  
So I got to take it farther nigga that makes sense

My head in the clouds  
Getting head in the clouds  
By an angel in disguise  
She an angel in disguise  
D'evils gonna be my demise  
I swear that God's a girl, bitch
