

# The Law

Ab-Soul

[Ab-Soul:]

Love, Love is the law, love is the only law  
Yeah  
Love, Love is the law, love is the only law  
You should, you should do without

I've been slewing through the mail  
Fishing for a feed, to feed my female  
ASAP  
Nature is a mother, and life is a bitch  
I am convinced, God coming she just taking her time  
God coming she just taking her time  
Hey  
God coming she just taking her time  
God coming she just taking her time

I get the feeling that you only playing hard to get  
Cause you ain't forget how much I love a challenge  
I know we were divided to restore the balance  
Hope I still get you wet while you bending over backwards  
Watching over me in ecstasy expecting me  
Ya number is 6 and 50 interestingly  
I hope you're still blue, with golden ovaries  
On your tippy toes for me, just how you posed to be  
They spoke of us in Cairo quite some time ago  
How these atoms adapt to this it's incredible  
They love to go to sleep, but hate to be awake  
Treat the eye of horus as if it's just a symbol  
Unattainable, they read the wrong rights  
They see the signs but ain't see what the sign saw  
But luckily love is the only law  
Love is the, love is the only..

[Mac Miller:]

I've been slewing through the mail  
Fishing for a feed, to feed my female  
ASAP  
Nature is a mother, and life is a bitch  
I am convinced, yeah  
God coming she just taking her time  
God coming she just taking her time  
Yeah  
God coming she just taking her time  
God coming she just taking her time  
Take your time baby

Cause all my thoughts are lavender and pastel green  
And you the only one that know what I mean  
You know what I mean

And they say our separation was sacrificial and all  
But I'm in awe  
These hybrids getting high but they don't get it at all  
The pain of division is nothing  
The joy of disillusion is all but I'm in awe man  
I know that you were my discarded woman  
Like to say you everything but nothing

But you nothing but my everything  
How shall I explain  
Aye man

I've been slewing through the mail  
Fishing for a feed, to feed my female  
ASAP, yeah  
Nature is a mother, and life is a bitch  
I am convinced, yeah  
God coming she just taking her time  
God coming she just taking her time  
Yeah  
God coming she just taking her time  
God coming she just taking her time  
Take your time baby

One time for the women  
Two times for the ladies  
Three times for the bitches  
Can't forget about the Queen

[Rapsody:]  
Queens, we are nodding back  
Understand we are his back and  
When he puts the arc in your back understand  
That we took him to heaven where those golden arcs are at  
Golden as sundrops, Queen  
When he looks in your eyes you show him where the stars are at  
And your beautiful, beautiful darkness  
And in return he replies that girl I'll be your night  
Your knight in shining armor  
Cause you're my heart, queen  
And lying on his chest our hearts beat box  
And you and I are queens  
We remind him that he can be all ours  
Cause we all Gods  
And God is Queen and God is love and  
Love stays above all  
Heaven, stars, queen, God, God

Love  
Love  
Love  
Love is the law  
Love is the only law  
Love is the only law  
Love

Ay yo Bentley, remember that chick you brought by the studio?  
You thought that was your woman, your woman  
Ain't your woman, she's soul's woman  
It's love tho B it's love  
Yeah
