dream

grab me (Yeah)

Say you need me there for you (You)

And I'll never leave you alone

Baby, you

so crazy

I can't live without you

So grab me stronger

Around when was it

The day I had a bright smile on my face

Like there's nothing to worry about

Big smile like we are young

Like a child, I'm, oh, yeah

Now no, I'm not afraid one bit (Yeah)

Speed doesn't matter, it's a marathon

Light me, you light me so bright

Nothing lasts forever but

I know we're gonna

We can go anywhere

Whatever stops your way, we ride

We're faster because we're together

We'll do anything to keep us safe

When you feel like you're alone

Oh, then

Every time you feel that way, grab me

Say you need me there for you (You)

And I'll never leave you alone

Even on the edge of a cliff, scream out loud

Baby my everything, you

The world without you is so crazy

I can't live without you

So grab me stronger

Grab it, together we move, move

Don't let go, our rules, rules

Just look forward and run, shoong, shoong

From now on, no more, no fear with ya

Wave to the sun

Light falls in between our hands

Take a deep breath one more time

Run again now

Now no, I'm not afraid one bit

Laugh it off loudly, it's okay no matter what anyone says

Light me

You light me so bright

Every time you feel that way, grab me

Say you need me there for you (You)

And I'll never leave you alone

Even on the edge of a cliff, scream out loud

Baby, my everything, you

The world without you is so crazy

I can't live without you

So grab me stronger

Grab it, together we move, move  
Don't let go, our rules, rules  
Just look forward and run, shoong, shoong  
From now on, no more, no fear with ya

You and I, our dream  
Until our breath runs out

Once again, grab me (Yeah)  
Say you need me there for you (You)  
And I'll never leave you alone  
Even on the edge of a cliff, scream out loud  
Baby my everything, you  
The world without you is so crazy  
I can't live without you  
So grab me stronger
