

Moonlight

AB6IX

You look so cool
Standing over there like I don't know you
Oh no, no, no
Babe, I want you
And I know you feel the same way that I do, do
Ooh, woah

Any place, any time, any way that you like
Cloudy skies never let all of the stars align
Never found a good time
Baby, for you and I
Finally, we can see everything sparkling
Timing has never been better than this no lie
Baby, we could go far
Hop on my shooting star (Hoo)

Moonlight
Under the stars at midnight
We gonna have a good time
Give me your hand and meet me in the
Moonlight
Dancing under the starlight
Way it reflects in your eyes
Nothing can stop us, meet me there tonight

Hey, you there with the blue eyes
Stop and stare looking so fine
Stole my heart, thinkin'
Oh, my, oh, my, oh, my
Never thought it'd be this hard get it right
But for you I would stay up like all night
Not the type who can slow down, but for you I'm so down
You're twisting me up, I'm a Gemini

Any place, any time, any way that you like
Cloudy skies never let all of the stars align
Never found a good time
Baby, for you and I
Finally, we can see everything sparkling
Timing has never been better than this no lie
Baby, we could go far
Hop on my shooting star (Hoo)

Moonlight
Under the stars at midnight
We gonna have a good time
Give me your hand and meet me in the
Moonlight
Dancing under the starlight
The way it reflects in your eyes
Nothing can stop us, meet me there tonight
Moonlight
Under the stars at midnight
We gonna have a good time
Give me your hand and meet me in the
Moonlight
Dancing under the starlight

The way it reflects in your eyes
Nothing can stop us, meet me there tonight

What's good? What's going on now?
You free, you wanna go out
Pull up, baby, are you down?
Oh

What's good? What's going on now?
You free, you wanna go out
Pull up, I know you so down
So down

Moonlight
Under the stars at midnight
We gonna have a good time
Give me your hand and meet me in the (Give me your hand and, in the)
Moonlight
Dancing under the starlight
The way it reflects in your eyes (Your eyes, your eyes)
Nothing can stop us, meet me there tonight
Moonlight
Under the stars at midnight
We gonna have a good time
Give me your hand and meet me in the
Moonlight (Yeah)
Dancing under the starlight
The way it reflects in your eyes
Nothing can stop us, meet me there tonight

Moonlight
Midnight
Good time
Meet me in the moonlight
Starlight
Your eyes
Stop us
