Love, you're mine

Led me to you that gravity
Becoming clearer our chemistry
You've completed it, my favorite
I run into your heart to be reached to you
You are a bright flashlight
Orbiting around you, I am that satellite
Finally found my savior
You are my miracle

Yeah a strong architecture brandnew kingdom
Spark up pow pow I hide the emptiness
No lights are reached deep inside my heart
Trigger it's you, dreaming about you, I am a dreamer yeah
All those that are shining again are hundred dollar bills
The night in this city, lights down I know who's real
The axis of my universe, you deserve the best
Just you and me no hashtag

As I saw you
I was attracted like gravity
Filling up endlessly, I can hear you calling
Your voice smears in me so warmly
And wakes me up from fading away
Call me again

Led me to you that gravity
Becoming clearer our chemistry
You've completed it, my favorite
I run into your heart to be reached to you
You are a bright flashlight
Orbiting around you, I am that satellite
Finally found my savior

AB6IX
Supernova explosion girl
Burning up for you
You are my sun, I breathe hot approaching to you
Roller coaster ride, you turn me around
Take it to the next universe like a fire
Pull me on a night when you don't want to be alone
Even if a kite's falling with a string cut off, take me higher
I know you are orbiting around already

No choice to collide beautifully, it's a destiny

As I saw you
I was attracted like gravity
Filling up endlessly, I can hear you calling
Your voice smears in me so warmly
And wakes me up from fading away
Call me again

Led me to you that gravity
Becoming clearer our chemistry
You've completed it, my favorite
I run into your heart to be reached to you
You are a bright flashlight
Orbiting around you, I am that satellite
Finally found my savior
You are my miracle

Oh you make me crazy
Oh my one and only
Oh hurry come to me
As close as possible, so deeply
Oh you make me crazy
Oh my one and only
Oh hurry come to me
Love, you're mine
