

Aliens

Abandoned Pools

It's like we're in
A haunted mansion
The ghosts and ghouls are everywhere

Let's just get out of here
Before they get too near
Back at our house, the sign reads
Chaos ends here

Aliens we are
And aliens forever be
Why should I believe in anything
Aliens we are
And aliens forever be
Why should I believe in anything
You say to me

It's like we're in
A hall of mirrors
With mass delusion everywhere

I can't just play along
Until everyone is gone
Silently slipping away into oblivion

Aliens we are
And aliens forever be
Why should I believe in anything
Aliens we are
And aliens forever be
Why should I believe in anything
You say to me

Let's shake it off and get back to it
You don't have to be a super genius
All that I need you to be
Is right here with me

Aliens we are
And aliens forever be
Why should I believe in anything
Aliens we are
And aliens forever be
Why should I believe in anything
You say to me
