

Welcome to the world  
My little virgin baby doll  
Can you save me?  
I set you off  
With the tip of my tongue  
Spinning  
Never coming back

I wanna dig for gold  
Wear the crown of forever lost souls

I'll be nothing  
Forever

Jill went up the hill  
And gave herself the will  
To kill her fear  
Now she's unstoppable  
Indestructable  
The incorruptible  
Forever lost soul

Just a mercy kiss  
Born of emptiness  
I'm so sick of this  
And your fakin'...
