Sunny Day

Abandoned Pools

Hiding inside a crowd

My head is inside a cloud

Go where the music's loud

And all these talking heads are

Blurred in violet hues

Another Sunny Day

She doesn't know wrong from right
She doesn't know when to fight
She only knows that tonight there's always someone out there
She'll never be alone

Another Sunny Day C'mon get out

Get off the bathroom floor
Daddy's not here no more
I'm showing you to the door
Enough of always numb and always insecure

Hiding inside a cloud

Go where the music's loud

My head is inside a crowd

And all this talk of rock-stars really makes me sick
