

# Bring On The Damned

Abattoir

Apocalypse in ten weeks  
Astronomical secrets  
Elect the saints  
We won't neglect  
Man began to multiply  
Daughters born to them  
For the chosen to select

Sworn and bound by mutual exsecration  
The remainder all of them  
Engaging the women one by one  
Teaching sorcery, enchantment to the sun

Bring on the damned  
A wrath will fall on earth  
Burning the land  
A moral to their song  
Bring on the damned  
Their words will be condemned  
Burning the land  
Will they live to see the end

Teaching men the power of steel  
Blasphemy increased corruption their will  
Hand and foot their ruler is bound  
Cast into the darkness, he's going down

Bring on the damned  
A wrath will fall on earth  
Burning the land  
A moral to their song  
Bring on the damned  
Their words will be condemned  
Burning the land  
Will they live to see the end
