

# The Living And The Dead

Abattoir

Oh feel the despair  
The hopeless prepare  
To mock and deface  
The whole human race

The last generation  
It's the end of the nations  
It's coming true  
All around you  
Don't hold your breath,  
And wait for death  
Tomorrow might not come  
Standing here, it's time to fear  
There's nowhere to run  
The living and the dead

Oh darkness awaits  
The curtain will fall  
Changing the pace  
On the whole human race

The last generation  
It's the end of the nations  
It's coming true  
All around you  
Don't hold your breath,  
And wait for death  
Tomorrow might not come  
Standing here, it's time to fear  
There's nowhere to run  
The living and the dead
