

Bridge Of Spasms

Abbat

With fist on hilt I wade thru guilt towards the Bridge of Spasm
s

A flailing limb cast across the yawning Maul of Chasms
Hooked to ledge at sanity's edge steel convict clamped in irons
It undulates squirms like bait hung 'bove pit of lions

That fickle whore Fate forced my gait to tread this skyward pat
h

On skeletal thread blind man led by echoes of strangled laugh
With every step terrors swept fears like flies in rift of mind
I crawled, cracked nails clawed the creaking boards of crooked
spine

Torpid Styx twist viscid fist through bowels of howling Deep
My demons spare not one nightmare ever rode plague-ridden sleep

Like ouroboros I swallow tale
Like ouroboros I swallow tale

Nailed to the mast! Flee pox of past!
Ignore the sirens' shrieking hearts
Sail the flux! Ride upheavals!
Dive beyond immortal charts

In lee of Bridge of Spasms I split among the atoms
In lee of Bridge of Spasms I split among the atoms

A raw nerve stretches ganglion curve till ventricles erupt
I flow like blood through floating vein's arterial aqueduct
Crest the arch, gaze aghast, upon Oblique of Great Divide
It mirrors morass, life-spans' collapse, loop of ego's pride
Pride
