Abbath

Phoenix in a frozen flame  
Trapped in arctic-winter crypt  
Scars of past have cast the chains  
From book of ages we are ripped  
Raven glide on polar-winds  
Hailstones sharp shards of glass  
Banish thoughts of lesser men  
In the end flesh is grass

Divided we fall  
United we rule  
Hybrid stand tall  
Ignite freak with fool

Phoenix soar as sunlight thaws  
Glacier and frigid earth  
Shake the ice from fiery mane  
Torch the skies emblazon birth  
Raven dive through lightning strike  
Whip cirrus into swell  
Pierced by deadly shrike  
Spirit flies, no man can fell

Divided we fall  
United we rule  
Steadfast we toil  
Rebellion our tool

Dauntless fearless tireless relentless

Phoenix rise and conquer time  
Temper fate  
Reclaim the zeitgeist in its prime  
Rejuvenate  
Raven dive through lightning strike  
Whip cirrus into swell  
Pierced by shrike  
Spirit flies, no man can fell

Divided we fall  
United we rule  
Steadfast we toil  
Rebellion our tool

Dauntless fearless tireless relentless
