

# Forever Lonely

Abbey Glover

I won't be around forever  
But I'll be forever lonely  
I won't be scared of what's happening forever  
But I'll be scared of what's coming  
My brain's not working  
My brain's not working  
You could do better than me  
It's keeping me awake at night  
With all the terrible things that it's thinking  
All the terrible things that it's thinking

Leave me alone  
Go away  
It's not you that I'm talking to  
I'm talking to my brain  
Leave me be  
Give me a break  
'Cause there's only so much hurt that I can take  
I said there's only so much hurt that I can take

I won't be frowning forever  
And memories will keep me smiling  
It won't last forever  
But anything is better than nothing  
I'm still trying to find  
Still trying to find  
The thing that truly makes me happy  
And I won't stop trying  
Won't stop trying  
Until I find it

Leave me alone  
Go away  
It's not you that I'm talking to  
I'm talking to my brain  
Leave me be  
Give me a break  
'Cause there's only so much hurt that I can take  
I said there's only so much hurt that I can take

I can't do this alone  
Can't do this alone  
But I have no one with me  
I can't do this alone  
Can't do this alone  
But I have no one with me  
I can't do this alone  
Can't do this alone  
But I have no one with me

Leave me alone  
Go away  
It's not you that I'm talking to  
I'm talking to my brain  
Leave me be  
Give me a break  
'Cause there's only so much hurt that I can take

I said there's only so much hurt that I can take
