

Friends

Abbey Glover

I'm a little bit obsessed
With the way the way you move
Looking at all my things
As you walk slowly around my room
You say we're just friends, think again
Oh baby, think again

'Cause friends don't kiss
Friends don't kiss the way we do
And friends don't get butterflies like I do when I'm looking at you
Looking at you, looking at you
Oh, when I'm looking at you

You like to make me feel jealous
By telling me all about these fellas
With whom you've been hanging out
But I don't really get how you could see
Any other person when you spend all your time with me

'Cause friends don't kiss
Friends don't kiss the way we do
And friends don't get butterflies like I do when I'm looking at you
Looking at you, looking at you
Oh, when I'm looking at you

The risk of ruining what we have
Is the only reason you're holding back
Fine, we can be friends, friends, friends
We can be friends, friends, friends

The risk of ruining what we have
Is the only reason you're holding back
Fine, we can be friends, friends, friends
We can be friends, friends, friends

But even friendship sometimes ends

'Cause friends don't kiss
Friends don't kiss the way we do
And friends don't get butterflies like I do when I'm looking at you
Looking at you, looking at you
Oh, when I'm looking at you

'Cause friends don't kiss
Friends don't kiss the way we do
And friends don't get butterflies like I do when I'm looking at you
Looking at you, looking at you
Oh, when I'm looking at you
