

# Help Me

Abbey Glover

Help me out  
I really need your help right now  
I can't seem to find a way out  
Alone  
My brains not functioning  
I could really do with something  
To keep my mind off everything  
That's going on

I'm screaming  
Help me, help me, help me honey  
Help me, help me

You always knew the words to say  
To make everything all okay  
And I miss you  
And I need you tonight

Looking at myself  
I really don't like what I see  
And the mirror keeps saying nasty things to me  
You used to make me feel pretty  
Light up the dark days  
Now everything's turned into grey  
No more sun

I'm screaming  
Help me, help me, help me honey  
Can you hold me, hold me now

You always knew the words to say  
To make everything all okay  
And I miss you  
And I need you tonight

I'm screaming  
Help me, help me, help me honey  
Can you help me, help me now

You always knew the words to say  
To make everything all okay, all okay  
And I miss you  
And I need you tonight  
Oh, honey, I miss you  
And I need you tonight
