

HER

Abbey Glover

She's not perfect
But she's as charming as can be
The way she dances round the room
Hypnotises me
Although I'm blinded, it's not hard to see
That to me she is what I'd call true beauty

And I can't get enough of her
Forever would fly by in an instant with her
And you can't get longer than forever
But forever wouldn't be enough for me
Oh God am I in love with her?
Oh God am I in love?

She drinks to forget
The pain of her past
Maybe I could be the happy cure that would last
I'm good to her, she's good to me
Perfect match quite clearly
Oh God am I in love with her

And I can't get enough of her
Forever would fly by in an instant with her
And you can't get longer than forever
But forever wouldn't be enough for me
I'm so in love with her
I'm so in love with her

Show me that beautiful smile
Wanna be my love for a long while
Wanna hold my hand like kids do in school
Wanna be my happy in a world full of cruel
Show me that beautiful smile
Wanna be my love for a long while
Wanna hold my hand like kids do in school
Wanna be my happy in a world full of cruel

And I can't get enough of her
Forever would fly by in an instant with her
And you can't get longer than forever
But forever wouldn't be enough for me
