

I Need You

Abbey Glover

I could really use
Really use some help right now
Maybe you
Could come over to my house
I need you
You don't have the time
Have the time for me
Maybe you
Find my mind sad and boring
But I need you

And I'm crying, dying
For your loving
And I don't know why
'Cause you give me nothing
When I need you
Oh when I need you
And you're lying
Never replying to my calls
And I don't even know
What I call you for
'Cause you're with her
When I need you

You come over to
Over to mine
'Cause she left
'Cause she left you last night
And you need me now
But I won't let you win
Let you win this time
You see my heart
See my heart
Well it's all mine
I don't need you now

And I was crying, dying
For your loving
And I don't know why
'Cause you gave me nothing
When I needed you
Oh when I needed you
And you were lying
Never replying to my calls
And I don't even know
What I called you for
You were with her
When I needed you

Now you're all alone
With nowhere to go
Well, I hope you know
That it's all your
All your
All your fault

I was crying, dying

For your loving
And I don't know why
'Cause you gave me nothing
When I needed you
When I needed you
And you were lying
Never replying to my calls
And I don't even know
What I called you for
'Cause you were with her
When I needed you
