

# What Did I Do Wrong?

Abbey Glover

Everything's just so grey lately  
I was really hoping you'd save me  
I had been waiting and waiting  
And you never came  
I'd got so used to dreaming  
Now nightmares happen  
Daytime and evening  
I could only sleep when you were here and  
Now you're gone

And I don't want you to see just how much I'm struggling  
Life was just so easy when you were here with me  
Feel you touching my skin as our hearts were over beating  
Tell me why does everything have to end?  
Now you're gone, now you're gone  
Now you're gone, come back home to me  
What did I do wrong? What did I do wrong?  
What did I do wrong? Tell me please

Rain doesn't seem to stop lately  
It was only sunny when you were with me  
I feel I'll get hit by lightening if I go outside  
Rainbows would appear when you would kiss me  
Now I'm nothing but lonely  
I miss the kind of love that you would show me  
Was it all my fault?

And I don't want you to see just how much I'm struggling  
Life was just so easy when you were here with me  
Feel you touching my skin as our hearts were over beating  
Tell me why does everything have to end?  
Now you're gone, now you're gone  
Now you're gone, come back home to me  
What did I do wrong? What did I do wrong?  
What did I do wrong? Tell me please

And all I can do is sit and wait  
And hope you'll want me again some day  
I couldn't love another  
I wouldn't want to anyway  
I couldn't love another  
I wouldn't want to anyway  
I wouldn't want to anyway

And I don't want you to see just how much I'm struggling  
Life was just so easy when you were here with me  
Feel you touching my skin as our hearts were over beating  
Tell me why does everything have to end?  
Now you're gone, now you're gone  
Now you're gone, come back home to me  
What did I do wrong? What did I do wrong?  
What did I do wrong? Tell me please
