

Be That Girl

Abby Anderson

Say you been lookin' for a good girl
Said all the good girls gone
So you been lookin' round the whole huh?
Well, I been right here all along

We can, we can keep it in the friend zone
But if you take it you won't leave it alone

Skyline or an ocean view
In a crowd or just me and you
Be the girl the keeps you up all night
And still the only one your mama likes
Barefoot in some cut off jeans
Classic black in a downtown scene
You can tell me all your wildest dreams
Imma make em a reality
Yea baby, Imma be that, be that, be that, be that, be that girl
For you

I know all your history
And you know mine
But we can leave a little mystery
For you to find

I am something you keep on the down low
So if you hold me, you gonna let em all know

Skyline or an ocean view
In a crowd or just me and you
Be the girl the keeps you up all night
And still the only one your mama likes
Barefoot in some cut off jeans
Classic black in a downtown scene
You can tell me all your wildest dreams
Imma make em a reality
Yea baby, Imma be that, be that, be that, be that, be that girl
Cause I know that you need that, need that, need that, need that, need that girl
So won't you let me be that, be that, be that... be that girl
For you

So baby, how that sound
Tell me are you down?

Skyline or an ocean view
In a crowd or just me and you
Be the girl the keeps you up all night
And still the only one your mama likes
Barefoot in some cut off jeans
Classic black in a downtown scene
So go on tell me all your wildest dreams
Imma make em a reality
Yea baby, Imma be that, be that, be that, be that, be that girl
Cause I know that you need that, need that, need that, need that, need that girl
So won't you let me be that, be that, be that... be that girl
For you
