

# Brighter Than the Sun

ABC

I am amazed and a little fazed  
By what passes for with these days  
I'm not crazy about the trash they praise  
Or the flags they wave these days

I'm amazed and a little fazed  
By the drugs they crave these days  
That's just the way it plays  
It's a masquerade these days

I'm a man out of time  
Until the stars realign  
With taste so refined  
I don't know which way we're heading

I'm a man out of time  
With a mountain to climb  
Just looking for a sign  
Do you know which way we go?

I'll ask the boy that I once was  
About the man that I've become  
About the days and days and days gone by  
And the night still yet to come

That boy would turn to me and say  
You're not the only one  
When all's said and done  
Our future's looking brighter than the sun

I'm amazed and little fazed  
By the way love stays today  
By the facts that they portray  
In a lover's gaze today

I'm amazed and a little fazed  
By the things you say to me  
By the faith you place in me  
And all that we can truly be

I'm a man out of time  
Until the stars realign  
With taste so refined  
I don't know which way we're heading

I'm a man out of time  
Trapped in rewind  
Just looking for a sign  
Do you know which way we go?

I'll ask the boy that I once was  
About the man that I've become  
About the days and days and days gone by  
And the night still yet to come

That boy would turn to me and say  
You're not the only one

When all's said and done  
Our future's looking brighter than the sun
