

Minus Love

ABC

Minus love a man is nothing
Minus love a vacant space
Living in a world of suffering
Without a name
Without a face
A face

Suddenly something changed
I've never had a dream come true
Until you, until you
I've never felt this brand new
Until you, until you

Minus love, this world means nothing
Minus love, a desolate place
Living in this world's a tough thing
Without a hope without a trace
A trace

Suddenly something changed
I've never had a dream come true
Until you, until you
I've never felt this brand new
Until you, until you
I've never had a dream come true
Until you, until you

There are people out there
Happy to leave you at zero
There are people out there
Wanna watch your world cave in
Then they wonder, why you won't let them in

I've never had a dream come true
Until you, until you
I've never felt this brand new
Until you, until you

There's a lock and there's a key
There's a door in front of me
There's a clock upon the wall
Measures out the seconds

I've never felt this brand new
Until you (until you call) until you
There's a lock and there's a key
There's a door in front of me
There's a clock upon the wall
Measures out the seconds...
