

The Love Inside the Love

ABC

More than mad infatuation
Much more than mutual attraction
Yes, it's all our own creation
On a road to satisfaction

Life keeps revealing
A deeper deeper feeling
Between you and me
Through the years we get to see

The love inside, the love inside
The love inside the love inside the love
The love inside, the love inside
The love inside the love inside the love

This world was once a kinder place
We'd welcome love in time and space
We walked as Gods in a state of grace
A smile on your face

Life keeps revealing
A deeper deeper meaning
Between you and me
Through the years we get to see

The love inside, the love inside
The love inside the love inside the love
The love inside, the love inside
The love inside the love inside the love

Take a left at heartache
Carry on three blocks
Then a right to all the emotions you conceal
At the river, take a right then a left then a right
To all the things you refuse to feel
Across the railway tracks
A journey for the soul
Avoid the [?] sacks
But there you'll find your gold
Buried beethere the plastic bags
In a box inside a box
Inside a box

The love inside, the love inside
The love inside the love inside the love
The love inside, the love inside
The love inside the love inside the love
