

# Keep Me Guessing

Abe Parker

I don't understand the way that you move  
There's magic in your hands by the light of the moon  
I don't know how time slows when you walk in a room  
But you know what you're doing, baby

I don't know how you keep me spinning round till  
I don't know which way's up

You keep me guessing  
You keep me begging for a little more  
You keep on messing  
With my heart and with my soul  
I'm drawn to your secrets like a moth to the flame  
You keep me guessing  
Again and again and again  
Again, oh, yeah  
Again

You push me off the deep end and pull me close  
We'll run off every weekend till we find a home  
I say, "send me a sign", but I'm so glad you don't  
'Cause it makes me fall a little farther

No, you don't need makeup just to make an entrance  
Don't know how you do what you do

You keep me guessing  
You keep me begging for a little more  
You keep on messing  
With my heart and with my soul  
And just when I thought I'd figured out your game  
You keep me guessing  
Again and again and again  
Again, oh, yeah  
Again, oh-oh

I keep telling myself  
I've found every reason  
To fall for you head over heels  
Then you wear that dress  
And you reach for my hand  
And I find a million more

You keep me guessing  
You keep me begging for a little more  
You keep on messing  
With my mind and my whole world  
I'm drawn to your secrets like a moth to the flame  
You keep me guessing  
Again and again and again

You keep me guessing  
Again and again and again  
You keep me guessing  
Again and again and again

I'm drawn to your secrets like a moth to the flame

You keep me guessing  
Again and again and again
