

# Reason

Abhi the Nomad

I'm barely breathing  
Shit got me bleeding out  
Give me a reason  
I'm tryna even out  
I don't wanna play the victim (oh I'm)  
Waiting for this shit to kick in (on god)  
The way you acting ain't convincing (no lie)

Give me a reason for the high we chasing, baby  
Give me a reason for the time we wasted, days and days

I'm getting fucked up on vacation  
Taking shots, no chaser  
If it's love drunk then I'm wasted  
Hit the playlist  
Run it from the top  
Do you know where we are?  
We could take it slow if you want to  
I'll be in the loft baby, come get lost with me

Could you give a dog a home?  
Cook me up a meal, I've been looking for a bone  
I've been searching every house from LAX to Oklahoma  
Making love from coast to coast  
Chi-town to the gulf and I'm  
Looking for the one to make me stay  
If you're down for the night then I'll welcome the chase  
Just know I got a flight with no return date  
But if you drive me to the plane give you a kiss at the gate, b  
ye

I'm barely breathing  
Shit got me bleeding out  
Give me a reason  
I'm tryna even out  
I don't wanna play the victim (oh I'm)  
Waiting for this shit to kick in (on god)  
The way you acting ain't convincing (no lie)

Give me a reason (on god)  
Give me a reason (no lie)  
Give me a reason (we could take it slow if you want to)
