

Risky Business

Abhi the Nomad

Yeah

Year of the nomad, son

New year new me

I ain't living check to check I'm Gucci

Tie dye swag I'm back and groovy

I'm neck to foot fresh I'm Stanley Tucci

Y'all can't match the bag it's too deep, I'm writing movies

My wifey boobies and thighs a two piece

I'm signing no type of fine prints my guy, I'm fine and too free ah

Cause I don't really wanna be bothered

I don't wanna deal with the brand and smokescreen mirages

I'd rather switch the switch on just and go sauce on em bitches

Put the Netflix on, sip good liquor, get the Sichuan chicken with the thick sauce dripping

All while dick hard, kissing my woman, and then rip off bra and get all in it, ugh!

You can't see me dance with no lights on

So I'm sticking with the plan, oh I need a witness

I've been putting work in, all night long

So I won't take the chance, no more risky business

Straight up

Tall dark and handsome I stand

Straight up

I got the world in my hands

Straight up

She turn around and I get

Straight up

Can't no one fuck with my shit

Straight up

Tall dark and handsome I stand

Straight up

I got the world in my hands

Straight up

She turn around and I get

Straight up

Can't no one fuck with my shit

There ain't really much in this world that's better than love

You should try that shit, I'm just leveling up

Like cup head, nuff said bitch I am the one

This shits in my blood you can't buy that shit

Used to pop addy I was high as shit, some weed and some vyvanzes

I couldn't read vibes but I connected synapses

Sewed the mind maps, and in came the flows and finances

Call me the rhythm romancer, life's a dream I row the river boat faster

So fantastic, I am just smooth as cig smoke, and pinstripe suits, with old fashioned

It's so sad cause Grammy miss me, but I Left history to snag a Grammy

In turn I'll make history, and grind like an idli mixi till it's year of the nomad son

You can't see me dance with no lights on

So I'm sticking with the plan, oh I need a witness

I've been putting work in, all night long

So I won't take the chance, no more risky business
