Superbad

Abhi the Nomad

I've seen a lot of the world with my eyes
Still feelin' out of the loop and half blind
So damn close to a suit and a tie
That's not a bird or a plane, he can fly

Lift fast, movin' through the city lights
Quick enough for Whiplash, you could never stop me (Woo, woo)
Need gas, movin' like a sickle fan, name droppin' he the man
Ain't another copy

It's a bird, it's a plane
Flyin' super fast, you should know the name
I ain't Superman, I go for the grave
Call me superbad, superbad, put me on the screen

I've worked a day and I've stalled through the night
Soon it'll pay off, it will be alright
So damn close, I could touch the sky
That's not a bird or a plane, he can fly
Like yeah

I said DJ, let me talk my shit
Shawty really wanna super smash, baby please, get off my dick
And I got that swanky legs, swankin' when I walk like this
I be on some super bad off-white shit
You see me now 'cause

It's a bird, it's a plane
Flyin' super fast, you should know the name
I ain't Superman, I go for the grave
Call me superbad, superbad, put me on the screen
(On the screen)

Ah, ah, superbad, superbad
Ah, superbad

I've seen a lot of the world with my eyes
Still feelin' out of the loop and half blind
So damn close to a suit and a tie
That's not a bird or a plane, he can fly

Lift fast, movin' through the city lights
Quick enough for Whiplash, you could never stop me (Woo, woo)
Need gas, movin' like a sickle fan, name droppin' he the man
Ain't another copy, yuh
