Alone Together

Abigail Barlow

Alone together

Alone together

In the gallery
And she's just out of reach

Alone together
And just for a moment
Feels like I'll never be alone again
I'll never be alone again

Whenever she's close
Wherever she goes
I wanna be near

The deal was proposed
But I didn't know
Just how I'd feel

Alone together

Something is different than it was before
It was so innocent
Now that it's initimate
I want more

In a perfect version of us

In a perfect version of us

He'd be the artist and I'd be the brush

I'd be the artist and

We could escape
Into the painting
Colored in green
And gilded in gold

When we're alone together
I lose control whenever our feelings unfold
The stories we told
When we're alone together
When we're alone together
I wish you were mine

We should go

Right
