

As Good As It Gets

Abigail Barlow

Let my head run wild too much
A marathon I can't keep up with
Meditation don't do shit for me
And when I try to take a breath
I almost suffocate instead
I think I might be dying silently

I'm asking question that don't really matter
Don't know why 'cause I never feel better

Is this as good as it gets?
I've lost all the good trying to feel it again
Guess I'll find my peace in knowing nothing will be perfect
That's just as good as it gets
As good as it gets
As good as it gets
As good as it gets

Qué sería de mi paz?
No me puedo imaginar
Con dos segundos sin pensar de mas
Qué es lo que me pasa?
Yo se que nada me falta, no no
Mi miedo me congela
Mi mente me envenena

I'm asking question that don't really matter
Don't know why 'cause I never feel better

Is this as good as it gets?
I've lost all the good trying to feel it again
Guess I'll find my peace in knowing nothing will be perfect
That's just as good as it gets
As good as it gets
That's just as good as it gets
That's just as good as it gets
Good as it gets
That's just as good as it gets
