

# Potential

Abigail Barlow

Ladies, new lore just dropped  
Picture this: interior, bar  
A crazy crowded Friday at Desert 5 Spot

It was Valentine's Day on the night that we met  
I was 3 drinks in and I'm feelin' myself  
We cross paths, lock eyes, I almost arrive  
And I can't stop thinkin' bout' him naked in bed

So good  
In my head  
And he could  
Have it if he wants it  
Baby, do you want it?

Touch me there, hands in my hair  
Power trip, flip, flip my breakers baby  
Jack up my heart rate, cardio's important  
Turn me on, it's electric  
You've got potential  
(Potential! Big! Big! Potential!)  
Potential  
(Potential! Big! Big! Potential!)

Cut to three weeks later  
I'm on top of his lap  
Kind of ride that's got me guessin'  
Is he built in a lab?

It's chaos, so hot  
He hittin' the spot  
I'm sick of a sprint, I want a marathon

It's good (it's good, it's good, so good, in my head)  
In my head  
And he could  
Have it if he wants it  
Baby, do you want it?

Touch me there, hands in my hair  
Power trip, flip, flip my breakers baby  
Jack up my heart rate, cardio's important  
Turn me on, it's electric  
You've got potential  
(Potential! Big! Big! Potential!)  
Potential  
(Potential! Big! Big! Potential!)

Big! Potential! Big! Big! Potential!  
Big! Potential! Big! Big! Potential!
