

Corner Girl

Abigail Washburn

Found you in a corner
Why'd you close your eyes?
I see you
Always in the corner
I hear them telling lies
I see you

What do you see from the corner?
Is it bigger than the sky?
Show me now
Always in the corner
They don't see your sky

Show me now

Take me to your corner
Watch your sunshine rise
Beautiful
Together in the corner
We will close our eyes
I see you
