

# Final Destiny Of The Gods

Abigail Williams

Oh bring me the night divine  
Among the coldness dwell I  
Under the blood red moon sky  
Bury my flesh blood and bone  
Now to the blind world below descending  
Bear now my unearthly cries  
Into the stars wandering beyond  
Shadowing my existence  
The sickly smells of human souls  
One by one did the blood drops  
O darkness triple form  
Eternally dedicated to the darkest light  
Let me the offering  
Behold the sorrow  
Extinction  
Mesmerizing misery  
Silent death  
Piercing your heart with dread  
Feel my stormy vengeance  
The unholy power of the cold black flame  
Burning down the churches of Christianity  
There is no escape  
Born to the darkness  
Void of human weakness  
The gates of hell have opened  
Our empire everlasting  
Sworn to the dark forces  
The white mountains of madness  
The bitter valley of sadness  
Bring forth the flood  
Answer the call
