

Speed Kills

Abigail

Nuclear destruction destroys the night
Maniacs of hate thriving on your fright
A sledgehammer pounding your head
You wanna leave you wish you were dead

Wicked screams circuits blow
What the f*ck you wanted to know

Hiding in dreams
Waiting to kill
It's all your fault
You know that speed kills
Metal and speed kills
Metal and speed kills

Jumping all around you thrash your brain
Push it to the limit and you feel the pain

Pedal to the metal death defying sound
Piledrivers you're into the ground

Wicked screams circuits blow
What the f*ck you wanted to know

Hiding in dreams
Waiting to kill
It's all your fault
You know that speed kills
Metal and speed kills
Metal and speed kills

Hiding in dreams
Waiting to kill
It's all your fault
You know that speed kills
Metal and speed kills
Metal and speed kills
