

# Battlestar Abigor

Abigor

A fallout force - a fatal vision  
Battlestar Abigor  
Decolour the universe in its purest shape  
Give birth to the constant of death  
Immortality and departure of the eternal stardust  
Reveal the eye of the phantom throne...  
Passage from another universe  
Into the 7th dimension  
Distortion and microcosmical revelation  
Corrosive devastating fire - the rage takes us higher  
Analyzed is now your mind  
Neutralized the human kind  
Battlestar Abigor - alignment of Satan  
Battlestar Abigor - like a planet that explodes  
For this is the dawn of the new age  
Refuse unknown - glory to be shown  
Electromechanical precision  
Objects termination  
Our legions are armed - mass murder, art  
Collective homicide - fear worldwide  
We're the kings of starlight  
The beast that tore from inside  
Our legions are armed - mass murder, art  
Collective homicide - fear worldwide  
Life's pain has come to an end  
So face the demon unchained  
And visualize fortress hell
