

## Cold Chain

abingdon boys school

In this silence, I hardly hear your breathing in.  
Such a long distance, tear us into pieces, more and more.

Could it be, delusion stuck in broken hearts  
No more cry, emancipate crazy feelings, go through the night

Defense against the dark,  
The draw to core of darkness, yeah  
The race against the time  
And the whole of my sadness  
If we swallow just a little pride of love  
We'll get into a cold chain...

With this feeling, I nearly find your naked eyes  
Take me to that place, the place where you belong, furthermore

If I could, diffusion struck our tainted minds  
Tell me why, to ease a hazy feeling, get over (the) night

Defense against the dark  
The draw to core of darkness, yeah  
The trace against the light  
A life never painless  
If we swallow just a little pride of love  
We'll get into a cold chain...

Oh, sacrifice it for you

It's a sleepless night, what a sleepless night!  
It's a sleepless night, what a sleepless night!  
Wow wow, only I know time will change it  
Never disguise again

Could it be, delusion stuck in broken hearts  
No more cry, emancipate crazy feelings, go through the night

Defense against the dark,  
The draw to core of darkness, yeah  
The race against the time  
And the whole of my sadness  
If we swallow just a little pride of love  
We'll get into a cold chain...

It's a tale of eternity in a false reality...
