here we go like that
kitaidai kyou no nichu kaisai
here we go again like that
idai naru ippo kinou baibai

Do you still believe in resolution?
Have you ever wandered in this insanity?
Are you still alive in superstition?
Have you ever heard the voice of eternity? (let's go)

Never... Can't you feel my heart,
Never again, so many sorrows,
Won't you ever overcome all the darkness?
I'll never leave you, 'cause you're a part of me forever...

How we're gonna find the destination?
Take me to the place where I left lost memories,
When we're gonna be in satisfaction?
Lead me to the voice that sounds of my misery. (...let's go)

Never... Can't you hear my sigh,
Never again, sinful tomorrow,
Won't you ever overcome all the sadness?
I'll never leave you, 'cause I'm a part of you...

Under the pressure makes me much stronger
We've got to take back the sun and the moonlight,
Unlock your future, that is your answer,
We've got to get out,
Out of a world in blue, now...

Never say never
ashita mo miru sora
katto suru kako no kurai michi nara
buru na gatsu mo houtsutte ru o-ra
miage tegoranyo yo, Hop Step Jump UP

Never... Can't you feel my heart,
Never again, so many sorrows,
Won't you ever overcome all the darkness?
I'll never leave you, 'cause I'm a part of you.

Under the pressure makes me much stronger
We've got to take back the sun and the moonlight,
Unlock your future, that is your answer,
We've got to get out,
Out of a world in blue, now...
