

Insect Politics

Aborted

Transmutation - morphing different species
True horror revealed as I vomit and consume you
The barriers of science have been desecrated
Greed, lust and power are never satiated

Insect politics
For the sane of mind
Insect politics
We're not the same

Body horror, horrid disfiguration
Molten gore from a retched form
A bloody mess of purulence and grime
New species - a carnivore sublime

Insect politics
For the sane of mind
Insect politics
We're not the same kind

Please help me

Please help me, this is insect politics

Absolute greed turning perverse
New-born atrocity about to burst
Contamination of the womb established
What ensues must be killed/redacted

Transmutation - morphing different species
True horror revealed as I vomit and consume you
The barriers of science have been desecrated
