

Parasitic Flesh Resection

Aborted

A quick grasp of insanity, cranial tissue in decay
A force fed tool of apathy i am
Parasitic life form, infesting my whole being
Necrotic fungus resecting organs to create...

The axe, anxiously removed from it's shelve
With an unpredescent joy I brutally hack

Psychonecrotic hallucinations,
As my skull begins to reek
With goreastic elegance I purge the weak

Parasitic life form
Rehashing the dead for it's cause
The chopping of heads
A daily act of self-enjoyment

Cranial metamorphosis,
A forensic decrepit anomaly
Intestines turn into pulp
Axe wielding among the stiffes
Parasitic resection...
