

## Termination Redux

Aborted

Fetid and abhorrent, these fantasies I am having  
Copious picturesque views of ending lives around me  
Vermillion canvas - these fantasies I am living  
Through human filth - miraculous views so vermilion and obtuse

Through their eyes, victimized  
A grisly study in still life - voraciously nailed - a puddle of  
gore  
The means to your pathetic end

Emaciated giblets rearranged on the floor - rotting  
Some might find me deranged but I'm merely an artist  
Bowels turn into vintage art  
Caustic demigod, a Rembrandt of gore  
Bowels turn into vintage art

Through their lives, idolized  
Now a grisly study in still life  
Voraciously nailed - attention seeking whores  
Die on your pedestal

Fictitious and bored - more than you ever were  
Now part of my body of art

"You are the scum of the earth, ambulant filth, self righteous  
and idle idolatry, societal degeneration."

You are the birthplace of disease  
You are a cancer that feeds, breeds  
No more than a sculpture that kneels, bleeds - contemporarily p  
leased

Through their eyes, victimized  
A grisly study in still life - voraciously nailed - a puddle of  
gore  
The means to your pathetic end
