

Decadence in a Nutshell

Aborym

A rusty razor stares back at me
Drug to cure the hurt
Everything they said turned to lie

Slow down, let go, lie down
A one by one we fall
Slow down, let go, lie down
Everything sucks so much

Destroy - overwhelm - annihilates your gods!
Terrorize the killers - blow 'em out! Fuck kleptocracy!

Living a short disappointing life
It's like moving inside a game
With no fuckin' chance to win

Slow down, let go, lie down
A one by one we fall
Slow down, let go, lie down
Everything sucks so much

This world is not for me...not for me
This world is not for me...not for me
This world is not for me...not for me
This world is not for me...not for me

Fuck kleptocracy!
Destroy - overwhelm - annihilates your gods!
Terrorize the killers - blow 'em out! Fuck kleptocracy!

Destroy - overwhelm - annihilates your gods!
Terrorize the killers - blow 'em out! Fuck kleptocracy!
