Man Bites God

Aborym

[Music: M. Fabban / Nysrok, Intro by Richard K Szabo, Lyrics: B ard G. Eithun, April 2005]

Strong in solitude Will, determination Ability to tear down And rebuild

No room for doubts Beliefs in vain Resistance strong as As rock solid train

Obsolete and forgotten The godhead of our time Heavily tuned down No more visible

Granted with wisdom This is me The soul is breathing Cries to be free

Reflecting upon changes Adapting to the new world Life coiling like a snake Like a fathomless lake
