

## Wake Up Rehab

Aborym

I'm seeing purple, seeing various greens  
fuzzy channels on my TV screen  
Electrified colours 'round my head  
it's a rainbow, I'm already dead

Now I am home, I sure as hell know what to do  
I'll sleep it all off, pass out in bed

I've licked the dirty needle graced with pain  
my feelings slowly washing down the drain  
Electrified colours all over my skin  
Forever living in a trance of sin

Now I'm alone, a voice is telling me right from wrong  
tonight the devil is the only one singing the song

I see magic way up in the sky  
I tell myself that the voice was a lie  
Pins rushing through my body, thoughts of insane  
deception slither in my brain

I'm seeing purple, seeing various greens  
fuzzy channels on my TV screen  
Electrified colours 'round my head  
it's a rainbow  
I'm already dead
