

Bittersweet & Blue

Above & Beyond

I've got a photograph of you
Kept in a box of memories
When I feel breakable
I take it out and look into your eyes
Hoping you'll tell me what to do
Give me some guidance
Always unshakeable
Your voice was strong and beautiful and wise

Look at the cloudless day
You captured me smiling
A fantasy life, you say
Is our silver lining

This is your life
Dreams can come true
They're like your memories of me
They'll be bittersweet and blue
This is your life
Dreams can come true
They're like your memories of me
They'll be bittersweet and blue

Bittersweet and blue
Bittersweet and blue
Oh, oh
Bittersweet and blue

Maybe I left it late to say
You were my hero
The rise and the fall of sun
Whistling, always striding through the snow
The thought of the weekend far away
Lasting forever

But when the day had come
The final bow, conceal the bottle flow

Look at me now, you'd say
Drowning in sorrow
"I guess I got lost today
But there's always tomorrow"

This is your life
Dreams can come true
They're like your memories of me
They'll be bittersweet and blue
This is your life
Dreams can come true
They're like your memories of me
They'll be bittersweet and blue

Bittersweet and blue
Bittersweet and blue
This is your life
Bittersweet and blue

This is your life
Dreams can come true
They're like your memories of me
They'll be bittersweet and blue
This is your life
Dreams can come true
They're like your memories of me
They'll be bittersweet and blue

Bittersweet and blue
Bittersweet and blue
