

Crazy Love

Above & Beyond

You know one thing I love about you?
You don't care which foot slips into the shoe
For you there's no wrong call
You don't care what they think
They're only colours: blue and pink

You know one thing I love about you?
Nature designed your mind to take in the whole view
You have no interest in judging or comparing
Your soul and mine - such a divine pairing

So many layers of crazy love I have in my heart for you
So many layers of crazy love I feel in my heart for you

So many layers of crazy love I feel in my heart for you

Oh I can feel it in my heart

So many layers of crazy love I have in my heart for you
I can feel it in my heart
So many layers of crazy love I feel in my heart for you
Oh I can feel it in my heart
