

# Happiness Amplified

Above & Beyond

I tried to take a picture  
Of the sunlight in your hand  
But the tears in my eyes  
Make it hard to focus  
So I just stand and stare  
Through the tears in my eyes

This is the love of my life right here  
This is the end of my night of fear  
This is the meaning of ever and ever  
This is happiness amplified  
This is reality starry-eyed  
This is the meaning of ever and ever

I came in search of answers  
To questions I can't find  
But you answered them somehow  
Poetry in motion

A melody to find  
There's a song in my heart now

This is the love of my life right here  
This is the end of my night of fear  
This is the meaning of ever and ever  
This is happiness amplified  
This is reality starry-eyed  
This is the meaning of ever and ever

This is the love of my life right here  
This is the end of my night of fear  
This is the meaning of ever and ever  
This is happiness amplified  
This is reality starry-eyed  
This is the meaning of ever and ever
