

## See The End

## Above & Beyond

I'm ready now  
To figure out  
The reason  
The more that I lose myself, the more that I find you

I never seem  
To remedy  
The feeling  
When I wanna hide away, you've already found me

In the night  
A mighty low  
You're all I have  
You're all I know  
I'll shut my eyes  
I'm caught in a dream again

In the night  
A mighty low  
You're all I have  
You're all I know  
I'll shut my eyes  
And hold you close  
You're all I've needed  
I never wanna see the end

And hold you close  
You're all I've needed  
I never wanna see the end

I'm caught in a dream again

In the night  
A mighty low  
You're all I have  
You're all I know  
I'll shut my eyes  
And hold you close  
You're all I've needed  
I never wanna see the end

I'm caught in a dream again

In the night  
A mighty low  
You're all I have  
You're all I know  
I'll shut my eyes  
And hold you close  
You're all I've needed  
I never wanna see the end
