

When You Believe

Above & Beyond

Don't look back
In the past, for something you can't reach
Don't you know
There's a spark of hope within your eyes?

Chase the sun
Even in the nighttime, while you sleep
'Cause fears and lies
Are the knives that tear our dreams apart

Haven't you heard?
Life will bring you what you need
There's a beautiful world
Waiting, and you hold the key

When you believe in love
You believe in life
And your life will love you back

When you believe in love
You believe in life
And your life will love you back

It will love you back
Back, back
When you believe in love
Life will love you back
Back, back

Don't look down
When the rain is falling at your feet
Don't you know
There's a ray of light within your heart?

Paint the way
Till you're standing on a golden street
Wherever you are
Nothing changes till you make it start

Haven't you heard?
Life will bring you what you need
There's a beautiful world
Waiting, and you hold the key

When you believe in love
You believe in life
And your life will love you back

When you believe in love
You believe in life
And your life will love you back

It will love you back
Back, back
When you believe in love
Life will love you back
Back, back

When you believe in love
Life will love you back
Back, back

When you believe in love
Life will love you back
Back, back

When you believe in love
Life will love you back

Believe in love
Believe in love
When you believe in love
And life will love you back
