

Cursive Curses

Above This

Cursive Curses

Write your curses in cursive

Don't let me down

You know that I'm all that you talk about

I have this fear of being let down

I know you won't be staying around

My heart beats the only thing that keeps me from leaving your sight

Last night you slapped me in my face

I like it rough you fucking bitch, so can i get a taste?

I have the tendency to be the guy thrown outta these places these faces

Can i, have the honor to try, to be the one that ends up alright

Tonight, I am a maniac

I'm done with kissing at your feet

If you can't hang then you can leave

You wanna try me? Wait and see

Why do you do this shit to me?

(2x) Can i, have the honor to try, to be the one that ends up alright

Tonight, I am a maniac

My friend, why, have you spoken?

I will not make the same mistakes you did

Let go, of, all your anger

I will not make the same mistakes you did

Cursive Curses, you set me up and now its' my strength versus you

On my mother, i will not make the same mistakes you did

Write your curses in cursive

Don't let me down

You know that I'm all that you talk about

I have this fear of being let down

I know you won't be staying around

My heart beats the only thing that keeps me from leaving your sight

Last night you slapped me in my face

I like it rough you fucking bitch, so can i get a taste?

I have the tendency to be the guy thrown outta these places these faces

(2x) Can i, have the honor to try, to be the one that ends up alright

Tonight, I am a maniac

Oh, That was the best make up sex that i've had

Get off the phone bitch you can't be that mad

I can't believe all the things we just did

I told you somethings i just can't admit

What is this pressure I feel inside me

I'll take it back i swear i'll put it all behind me

Take these steps back to take a step forward

Onward to new beginnings

(Chorus)

(Move, Bitch)
