

# Shape Shifter

Above This

Let's take a seat just figure all this out  
We're standing on the edge of mountain tops  
This is the final rage so don't you turn the page  
This is for everyone who wants to know  
Our world is constantly changing  
Our world is better than yours  
Our world is constantly changing  
Our world is better than yours  
And you know it's true  
Every single day you say it  
Every single day you say it

[2x]

Every single day, I turn to you and say  
Let's change the pattern of the this off scale world (off scale world)

You can't take this anymore

[2x]

Transform, all of your continents  
What is this vision of a perfect world? (perfect world)

If we all started to work together, our land would be cleaner  
If we all started to change the weather, our skies would be clearer  
Why don't you do your part

[3x]

East side, West side  
Let's come together and make change

[2x]

This is our effort, to clean up the world  
Your either in or out, so are you in or out

[2x]

Oh, shape shifter  
We are here, we'll make this clear

The world is changing for your hands to make  
So what path will you take, what path will you take  
This one's for you Thomy, cause you'll always be my friend  
East side, West side, put your fucking hands up, here we go!  
Oh, your dead to me,

[4x] Burn the nation down

I was sent from the sky to burn the nation down

(Battle roar)

Bitch your dead to me,

[4x] Burn the nation down
