

# There Can Only Be One Second Best!

Above This

[4x]

Straight into my eyes, your demise  
I got another one to my eyes, your demise

I'm fucking great

Cause this is, the end of the world, yeah

I wasn't satisfied from the first time that I saw your fucking face

I couldn't help but laugh at the fact that you thought that I would back down

But not that easily, I have a lot of hate built up inside of me

Take your opinions, and shove them right up your ass

Cause, this is the best time that I've ever had

We've been through all of the good and the bad

Take your mind set, and head for the hills

This is my life and I've got skills that kill

Oh, I'll shake the Earth as I'm stomping the ground

I'll take this weight off me pound by pound

You really think that I'd let you get through to me

Then suddenly, I come out of nowhere and push you into oncoming traffic

Ooh.. That really looks like it hurt!

What do we do?

Wait what was his name?

I think I'm going insane..

Let's call this scene "pathetic hit and run"

[2x]

Why can't I be like the other kids?

I try to fit into the crowd like you always did

I built myself up over night and strive to be the best

Tears are words that the heart cannot express

[2x]

Drop this motherfucker into the pit

I don't know why the fuck I try so hard, every chance I get

What's wrong with my past?

I swear to god I'll try my hardest just to make this last

Right NOW!

[2x] Turn me on, kill the bass, This is on, smash the place

I, must say

I'm pretty impressed by all your failed attempts to embarrass me

Two wrongs don't make a right.. but do two rights make a wrong?

Whoa man, I don't know, do they?
